A glowing, multi-layered cylindrical object, possibly a light fixture or a decorative lamp, is the central focus. It has a bright, yellowish-white top surface and several horizontal bands that glow with a warm, orange-red light. The object is placed on a dark, textured surface, possibly a piece of wood or stone. The background is dark and indistinct. A watermark "uihm.com" is overlaid on the image in a yellowish-orange color.

A photograph showing a lit candle in a small metal container. The candle is placed on a rectangular brick, which is itself on a dark, circular metal tray. A pair of metal tongs is holding the candle from the right side. The scene is dimly lit, with the primary light source being the candle's flame. The background is dark and indistinct. A watermark "uihm.com" is visible in the center of the image.

A glowing cylindrical object, possibly a small furnace or a heated component, sits on a rectangular wooden block. The object is emitting a bright orange-red light, suggesting it is at a high temperature. The wooden block is placed on a dark, circular surface. A pair of tweezers is visible on the right side, holding the glowing object. The background is dark and indistinct. A watermark "uihm.com" is overlaid on the image in a yellowish-orange color.
